Eighty-fourth Annual Meeting

Pursuant to notice duly given, the Eighty-fourth Annual Meeting of the Corporation of The Trustees of Reservations was held in the Haven Room on the 39th Floor of the New England Merchants National Bank, 28 State Street, Boston, Massachusetts, on Wednesday, January 29, 1975 at 4:00 p.m.

There being a quorum for the transaction of business present in person and by proxy, the meeting was called to order by President Charles E. Mason, Jr. Secretary Henry R. Guild, Jr. kept the minutes of the meeting.

Minutes of the previous Annual Meeting

Upon motion duly made and seconded, it was unanimously

VOTED: That the reading of the minutes of the Eighty-third Annual Meeting of The Trustees of Reservations be and it hereby is waived; and that said minutes be and they hereby are approved in the form presented to the meeting, subject to correcting page 4 thereof to reflect election of the officers for a one-year term, in accordance with the recommendation of the Nominating Committee.

Secretary's Report

Secretary Guild announced that his written report of the activities of the Standing Committee for the previous calendar year would be incorporated in the Director's Report to be delivered later in the program. He also noted that inasmuch as the Director has now assumed most of the functions performed by the Secretary at the time the by-laws were adopted, it would be more appropriate for the report

to be delivered by the Director. He accordingly recommended that an amendment to the by-laws be submitted for approval by the members of the Corporation at the 1976 annual meeting providing that said report of the Secretary shall henceforth be delivered by the Director.

Treasurer's Report

Treasurer Richard L. Frothingham presented to the meeting a written summary of financial results for the fiscal year ended October 31, 1974 and commented on various aspects of the financial condition of The Trustees of Reservations and the results of operations during the past fiscal year. He noted that the total resources of The Trustees of Reservations were approximately \$6,654,000 at the end of the fiscal year ended October 31, 1974, an increase of about \$24,000 over the previous year-end, even though there had been a 27% decline in value of the corporation's securities portfolio. He stated that the Corporation was maintaining a substantial reserve in high-yield, short maturity securities which accounts for the increase in investment income from \$168,000 to \$185,000. Operating income increased from \$242,000 to \$264,000 due to excellent weather at Crane's Beach, and total net income increased from \$676,000 in fiscal 1973 to \$697,500 in fiscal 1974. The apparent decrease in gifts received was due to the fact that in fiscal 1974 gifts for land acquisition were credited to a special fund for that purpose. During this same period headquarters expenses increased slightly from \$182,500 to \$183,500, and Reservations expense increased from \$462,500 in 1973 to \$478,500 in 1974. Total expenses, including transfers to the Reserve for Con-

tingencies of \$10,000 to defray the cost of certain items of a non-recurring nature and to the newly-established Reserve for Land Acquisition of \$20,000, in fiscal 1974 were \$691,800, as compared to \$675,000 for fiscal 1973.

The Treasurer's complete report will be printed in the Trustees' Annual Report for the year 1974.

Upon motion duly made and seconded, it was unanimously

VOTED: That the Treasurer's Report be and it hereby is accepted and approved in the form presented to the meeting.

Auditor's Report

Treasurer Frothingham then summarized the contents of a report for fiscal 1974 submitted by the Corporation's independent auditor, Cortland B. Bacall.

Upon motion duly made and seconded, it was unanimously

VOTED: That the Auditor's Report be and it hereby is accepted and approved in the form summarized for the meeting by the Treasurer.

President Mason then suggested that it would be in order to express the sincere gratitude of those present to retiring Chairman of the Standing Committee Augustus P. Loring and retiring Treasurer Richard L. Frothingham for their devoted service to The Trustees of Reservations in these offices.

Upon motion duly made and seconded, it was unanimously

VOTED: To express the sincere thanks of The Trustees of Reservations to Augustus P. Loring and Richard L. Frothingham, retiring Chairman of the Standing Com-

mittee and Treasurer, respectively, for their leadership and diligent attention to the affairs of The Trustees of Reservations during their years in office.

Report of Activities 1974

ACQUISITION AND PRESERVATION

The acquisition of two major new conservation areas highlighted activities of The Trustees of Reservations in 1974.

In September, the generosity of Mrs. Mine S. Crane made possible the preservation of more than 700 acres of sand dunes, salt marsh and upland in Ipswich and Essex.

The property, known as the **Cornelius and Mine S. Crane Wildlife Refuge**, includes historic Hog Island and four additional islands in the Essex River estuary. The Choate House, on the easterly end of Hog Island, was built in 1725. The area is also a haven for wildlife of every description.

WILDLIFE REFUGE ON NANTUCKET

In December, more than 810 acres of sand dunes, salt marsh and upland on Nantucket Island, including some five miles of shoreline, were given to The Trustees of Reservations by Mrs. J. Allen Backus, Jr. of Nantucket and Wauwinet and Mr. and Mrs. Robert W. Sziklas of Wauwinet. Mrs. Sziklas is the former Molly Taylor Backus.

This magnificent natural area will be known as **Coskata-Coatue Wildlife Refuge**. Included also is Coskata Pond and a wind-swept oak forest. North of Coskata are the Galls and Great Point which provides some of the island's best fishing for blue fish and striped bass.

1,945 ACRES ADDED IN 1974

We're most grateful to Mrs. Crane and to Mrs. Backus and Mr. and Mrs. Sziklas for their great generosity.

With these new properties, The Trustees of Reservations today is custodian for 56 "beautiful and historic places and tracts

of land" from Berkshire County to Cape Cod, Martha's Vineyard and Nantucket.

They total more than 14,000 acres of sea shore and woodland, river banks and streams, hilltops and headlands, wetlands, marshes and wildlife areas.

The Trustees of Reservations added in 1974, some 1,945 acres of land to the total it now preserves for environmental purposes throughout the Commonwealth.

Some 1,706 acres of this total were acquired in fee, the remainder, 239 acres, is protected by conservation restrictions or easements which allow property owners to guarantee perpetual preservation of open space while retaining fee title to their lands.

80 ACRES ON CHARLES RIVER

In 1973, The Trustees of Reservations initiated a program to protect a special section of the Upper Charles River Valley. The project area extends essentially from Rockville to the dam at South Natick and includes the primary watershed of the Stop River as well. Designed to protect the natural, scenic and cultural values of this unique portion of the Charles River, the project is coordinated by a special Committee - Charles River Protection Program. Its members are Thomas B. Williams, Chairman, Ellis N. Allen, Theodore Chase, Charles W. Eliot, II, Henry R. Guild, Jr. and John B. Niles.

In 1974, with funds received from a special grant for the purpose, The Trustees of Reservations purchased 24.2 acres in Sherborn with some 1,200 feet of frontage on the Charles River. The property, known as Kenyon Woods, is now a part of Rocky Narrows Reservation. It borders Rocky Narrows to the north, and Sherborn Town Forest.

Also, as a part of the Charles River Protection Program, The Trustees of Reservations acquired some 80 acres on the Charles River in Millis, the gift of Dr. and Mrs. John D. Constable.

The land includes wetland meadow bordering Bogastow Brook and 37-acre Bridge Island.

The project also encourages the use of conservation restrictions and calls for close cooperation with the United States Army Corps of Engineers Natural Valley Storage Program, with the Massachusetts Department of Natural Resources, the Division of Fisheries & Game, and town Conservation Commissions in efforts to protect the environmental qualities of the area. Meetings with land owners continue.

CHARLES W. WARD RESERVATION

In 1974, the Standing Committee approved purchase of some 35 acres of land on Shrub Hill bordering the Charles W. Ward Reservation in North Andover. The property, whose protection is critical to maintaining the integrity of this portion of the Ward Reservation, was in imminent danger of development. Its acquisition had long been top priority in the remarkable, now eight-year campaign to protect and enlarge the Ward Reservation. Under the direction of Standing Committee member John W. Kimball, Chairman of the Local Committee for the Ward Reservation, it has increased the total land area of the property to some 595 acres.

29 ACRES AT BEAR SWAMP RESERVATION

At Bear Swamp Reservation in Ashfield, we also received a gift of some 13 acres from the Reverend and Mrs. Philip H. Steinmetz. Rev. Steinmetz is Chairman of the Local Committee for Bear Swamp. Later, an additional 16 acres were also added to the Reservation, an acquisition

made possible by the generosity of the Reverend and Mrs. Steinmetz once again and by Dr. Henry A. Clark. We are most grateful to them all.

PERKINS FARM - NEWBURY

In December, we received an additional eight acres of land in Newbury, the gift of Dr. and Mrs. Elliott Perkins. The property, known as the Knight pasture, is part of a larger gift of some 95 acres of upland and salt marsh bordering Old Town Hill Reservation which is scheduled to come to The Trustees of Reservations over the next four years. We're immensely grateful to Dr. and Mrs. Perkins.

ELLIOTT LAUREL - PHILLIPSTON

In December, The Trustees of Reservations acquired by purchase some eight acres of land bordering Elliott Laurel Reservation in Phillipston. Two old pastures, the property provides additional protection along Templeton Road. The field to the northwest also borders an old burying ground.

WASQUE RESERVATION - CHAPPAQUIDDICK

At Wasque Reservation on Chappaquiddick Island, we also received in fee some 10,000 square feet of land, the gift of John T. J. Clunie. The area was an inholding whose acquisition was essential to the integrity of a portion of the Reservation. We owe great thanks to Mr. Clunie for making this parcel possible.

MAYHEW ISLAND - CHILMARK

In December, Mrs. Miriam G. Hurley's generous gift of a conservation restriction made possible the protection of 6.9-acre Mayhew Island in Nashaquitsa Pond, Chilmark. According to *The Vineyard Gazette*, Mayhew or Bull Island is "the largest island within the bounds of Martha's Vineyard, except for Chappaquiddick."

HUNNEWELL PINETUM - WELLESLEY
A conservation restriction protecting some five acres of land in Wellesley known as the Hunnewell Pinetum was given to The Trustees of Reservations also in December by Mrs. Minna L. Hunnewell. The pinetum contains an outstanding collection of evergreens, widely recognized and acclaimed for its horticultural value.

CASTLE NECK RIVER - IPSWICH AND ESSEX

As part of a continuing program to provide additional protection for the salt marshes of Ipswich and Essex, The Trustees of Reservations received as gifts, 14 conservation restrictions on salt marsh and upland along more than three miles of the winding Castle Neck River in Ipswich and Essex. For their generosity we are most grateful to the following donors: Sylvia S. Coolidge, Robert L. Goodale, Ellen O. Jennings, Sarah S. Ingelfinger, Elizabeth S. Lowell, Frances Anne Osborne, Sidney W. Osborne, Beatrice M. B. Pereira, Alice W. Shurcliff, Sydney N. Shurcliff, William A. Shurcliff, Gertrude Townsend, Katharine H. Townsend and Ruth B. Wheeler.

The protection program is being coordinated by the Ipswich-Essex Salt Marsh Committee: Charles W. Eliot, II, Lawrence G. Eliot, Charles H. Shurcliff, Sidney N. Shurcliff and John C. Vincent, Jr.

The Castle Neck River, a tidal estuary, flows into Essex Bay. The areas under restriction include three islands in the marsh. The Richard T. Crane, Jr. Memorial Reservation borders a portion of the restricted lands.

MENEMSHA HILLS RESERVATION

We also received a ninth, one-twelfth undivided interest in Menemsha Hills Reservation in Chilmark, Martha's Vineyard,

thanks to the continuing generosity of Nathaniel L. Harris and his sister, Miss Catherine P. Harris. The property, which includes a magnificent 100-foot high sand cliff, a landmark of the island's north shore, will eventually total 149 acres.

TISBURY GREAT POND

We also received in 1974, a seventh, one-tenth undivided interest in some 586 acres of upland and beach on Tisbury Great Pond and the Atlantic Ocean. This magnificently beautiful natural area, with its sea and shore birds of every description, is the gift of Frederick N. Blodgett, Carl J. Gilbert and William B. Rogers, Jr. We're most grateful to them all.

CONSERVATION AWARD

On Saturday, November 9, 1974, a bright, clear fall day, some 340 persons gathered at the Richard T. Crane, Jr. Memorial Reservation in Ipswich to participate in ceremonies honoring Thomas Dudley Cabot, of Weston, for a lifetime of accomplishments in the field of conservation.

At a luncheon ceremony at the Great House on Castle Hill, Charles E. Mason, Jr., President of The Trustees of Reservations presented Mr. Cabot with the organization's Conservation Award for 1974.

The citation reads as follows:

"Each year The Trustees of Reservations honors outstanding achievement in the field of conservation and the environment with the presentation of its annual Conservation Award.

"This year the award goes to Thomas Dudley Cabot of Weston. Mr. Cabot is a remarkable human being. He combines a multitude of talents in business, in education and in the field of health and medicine. Fortunately, during his varied and distinguished career, he has also maintained a lifelong love of the out-of-doors,

both here in his native New England and throughout the world. And wherever he has been he has directed his extraordinary energies and devotion to the public good to help preserve the beauty and the charm of nature.

“A former President of the Appalachian Mountain Club, he is co-author with John C. Phillips (first recipient of the Conservation Award in 1934) of **Quick-Water and Smooth**, the first canoe guide to New England rivers, which, with its later editions, continues to provide enjoyment for thousands annually and a better understanding of how man may live in harmony with his environment.

“As Chairman of the Charles River Watershed Citizens Advisory Committee, Mr. Cabot helped advance the proposal, unique in the history of the U.S. Army Corps of Engineers, which provides for flood control in the Charles River Valley with a plan for the perpetual protection of the river’s wetlands as natural storage areas as well as for the improvement of flood control and navigation in the Charles River Basin.

“For many years as well, in his yawl **Avelinda**, he has cruised the coast of Maine and his love for its beauty and wilderness led to his founding, with Mrs. David C. Rockefeller, the Maine Coast Heritage Trust, celebrated for its work with scenic restrictions. He is presently Vice President. Mr. Cabot is also widely known for his ‘collection’ of Maine islands, ‘a dozen in all,’ he states, each held for conservation purposes, and each, through his generosity, open for public use and enjoyment.

“A widely traveled explorer, he was the leader of the Cabot Expedition in 1939 to the Sierra Nevada de Santa Marta of Colombia which provided valuable knowledge of the highest coastal mountain mass in the world. He also made ascents in

Mexico documented in the **Canadian Alpine Journal**.

“Closer to home, Mr. Cabot, a former Overseer of Harvard University, is also a former member of the Faculty of its Museum of Comparative Zoology; a life member of the Corporation of the Massachusetts Institute of Technology; a member of the Corporation of the New England Forestry Foundation and a donor of one of its Memorial Forests; and a former member of the Standing Committee of The Trustees of Reservations.

“For this remarkable record of achievement in the field of conservation and the environment, The Trustees of Reservations is honored to present its annual Conservation Award this year to Thomas D. Cabot.”

In accepting the award, Mr. Cabot emphasized the growing importance of the use of conservation restrictions in protecting areas of environmental interest and natural value.

A star of the occasion as well was the new 700-acre Cornelius and Mine S. Crane Wildlife Refuge in Ipswich and Essex which includes historic Hog Island.

After luncheon, guests gathered in the ballroom of the Great House to hear Director Gordon Abbott, Jr. present a series of vignettes which described life at Hog Island since colonial days, and to view slides of the magnificent natural world of Hog Island, Round Island and Long Island presented by Deputy Director Garret F. VanWart.

LANDSCAPE AND NATURAL AREAS PROJECT

In 1974, the Massachusetts Department of Natural Resources assumed responsibility for all inventory data in the Landscape and Natural Areas Project. Originally proposed by The Trustees of Reservations in 1969 and later expanded to each New

England state, LANAP now identifies and includes data on more than 2,000 landscape and natural areas throughout the Commonwealth. The information is stored on computer tape. LANAP, co-ordinated by The Trustees of Reservations, represents a comprehensive, planned program to preserve areas of significant environmental and cultural value throughout the Commonwealth.

Landscape and Natural Areas Project data is included in the State-wide Outdoor Recreation Plan and will relate to future land-use planning programs.

The Trustees of Reservations continues its close liaison with the Bureau of Statewide Planning at the Department of Natural Resources Center. Each of the six New England states has selected a preliminary list of from 25 to 40 landscape and natural areas, all candidates for an ultimate list of areas of regional and/or national significance.

For their assistance and support with LANAP, we are most grateful to Commissioner of Natural Resources Arthur W. Brownell; to Albert E. Pratt, Chief of the Department's Office of Planning; to Robert D. Greenleaf, Chief of the Department's Office of Statewide Planning; and to John F. Debo, Jr., Planner assigned to the Landscape and Natural Areas Project.

Advisory Council member Charles W. Eliot, II has provided invaluable advice and direction as has Ervin H. Zube, Director, Institute for Man and Environment, University of Massachusetts, Amherst; Neil Jorgensen, Director of the Resource Center, Wheelock College, Boston, and author of *A Guide to New England's Landscape*; and Peter L. Hornbeck, Professor of Landscape Architecture and City Planning at Harvard University's School of Design.

SWIFT WILDLIFE MANAGEMENT AREA

Throughout its history The Trustees of Reservations has assisted other agencies and organizations in the preservation of conservation lands.

In keeping with tradition, in 1974 The Trustees of Reservations assisted in the gift of some 116 acres of land on the West River in Uxbridge and Northbridge to the Massachusetts Division of Fisheries & Game. The property will be known as the E. Kent Swift Wildlife Management Area. Planned protection projects also exist at these other areas: Mashpee River, Mashpee; the North River, Norwell, Hanover, Scituate and Marshfield; Jacob Hill, Royalston; Monument Mountain, Great Barrington; Whitney & Thayer Woods, Hingham and Cohasset; and Cape Poge Wildlife Refuge, Chappaquiddick.

GOVERNOR'S ADVISORY COUNCIL ON THE ENVIRONMENT

In 1972, Governor Francis W. Sargent appointed a special Advisory Council on the Environment. With Standing Committee approval, it included as a member Gordon Abbott, Jr., Director of The Trustees of Reservations. The Council met monthly during 1974. It studied, discussed and commented on a wide range of environmental subjects from air pollution control to transportation and from land use planning to environmental impact statements. It made recommendations to the Secretary for Environmental Affairs and directly to the Governor. Mr. Abbott served as the second chairman of the council. The office of chairman rotated every six months to a newly elected council member.

MANAGEMENT AND PROTECTION

MASTER PLAN STUDY COMMITTEE

Management master plans and policies for each of our properties help provide for the delicate balance between public enjoyment and preservation. A Master Plan Study Committee was appointed in the fall of 1974 for the Cornelius and Mine S. Crane Wildlife Refuge in Ipswich and Essex. Its members are presently collecting detailed information about the property's natural qualities and cultural features. Inventory information will be used to help determine policies related to the management and protection of the area.

Appointed by Standing Committee Chairman Augustus P. Loring of Beverly, Study Committee members are: H. Gilman Nichols, Vice President, Fiduciary Trust Company, former Chairman, Ipswich Planning Board, Member, Standing Committee, Essex; Lawrence G. Eliot, faculty, Shore Country Day School, Associate Member, Ipswich Conservation Commission, Ipswich; William C. Hickling, Regional Supervisor, Division of Wildlife Service, U. S. Fish & Wildlife Service, Member, Ipswich Conservation Commission, Ipswich; Mrs. Samuel Hoar, Member, Essex Conservation Commission, Essex; Sidney N. Shurcliff, Senior Partner, Shurcliff, Merrill & Footit, Landscape Architects and Planners, Chairman, Local Committee, Richard T. Crane, Jr. Reservation, Member, Advisory Council, Ipswich; Dana A. Story, President, Essex Shipyard, Inc., historian, author of **Frame-up, The Story of Essex, Its Shipyards and Its People**, Member, Essex Board of Selectmen, Essex; Mrs. Katherine B. Davis, Member, Essex Youth Commission, Essex; consulting architects: Daniel J. Coolidge, AIA, and George R. Mathey, AIA, Shepley, Bul-

finch, Richardson & Abbott. Mr. Coolidge is a member of the Massachusetts Historical Commission and of the Advisory Council of The Trustees of Reservations. Mr. Mathey is a member of the Local Committee for the Richard T. Crane, Jr. Memorial Reservation and Chairman of the Castle Hill Study Committee.

PLANNING AGREEMENT - NOON HILL

In March 1974, voters at Medfield's Town Meeting approved the purchase by the community's Conservation Commission, using Federal and state land conservation funds, of some 258 acres of land at Noon Hill, a major part of which was scheduled for development. Later in the year, the Town of Medfield and The Trustees of Reservations, authorized by the Standing Committee, signed a precedent-setting agreement to coordinate resource and conservation planning in the Noon Hill area. Chairman of the Medfield Conservation Commission with whom we worked on the acquisition project, is Mario Pederzini, just-retired Superintendent of Rocky Woods Reservation.

MAINTENANCE OF STRUCTURES

Many of the buildings on our properties are historic and architectural monuments. Others provide useful services vital to the preservation and enjoyment of an area and to the comfort of its visitors. All are maintained with the highest professional standards of care, and the museum houses with a deep and continuing concern for their cultural value and their architectural integrity.

Landscape structures — shelters, terraces, retaining walls, steps, walls and fences, gates and statuary — are also cared for with the same concern for detail.

In 1974, at Naumkeag, urgently needed repairs were completed in the Chinese Garden, including the replacement of the

wall cap and the restoration of other masonry.

At The Mission House, the barn apartment was painted.

At the Colonel John Ashley House, with Standing Committee authorization, the shed was converted into a living room as a part of the apartment now occupied by Mr. and Mrs. Robert W. Carpenter. Mr. Carpenter is Warden-Naturalist at nearby Bartholomew's Cobble. Mrs. Carpenter is Head Hostess of the Ashley House. Again, drawings for the conversion were made by architect Daniel J. Coolidge. Work was completed by Management Unit Superintendent Stanley I. Piatczyc and maintenance employee Glenn Young.

We owe Mr. Coolidge great thanks for all his design contributions to The Trustees of Reservations. They are invaluable.

At the Stevens-Coolidge Place, under the direction of Superintendent Donald R. Buma, shutters at the Main House were painted and replaced as necessary and the house itself painted in the fall. Mr. Buma and maintenance employee Jerry Berube, also in 1974, renovated the cottage off Salem Street bordering the Ward Reservation. The house is presently rented.

At the Crane Reservation, in Ipswich, Superintendent Charles E. Coates, Jr. directed the continuing maintenance program at the Great House at Castle Hill, as well as painting, shingling and meeting the maintenance needs of other buildings on the property both at Castle Hill and Crane Beach.

At the Bryant Homestead in Cummington, Superintendent Warren A. Drew and Assistant Superintendent David A. Allessio replaced a badly rotted barn floor and floor timbers and completed shingling the barn roof.

At The Old Manse in Concord, boarding

on the shed was replaced and lengthy negotiations with the National Park Service, which would have allowed for the closing of our parking area, came to an end as plans to establish a new car park in the North Bridge area of Minuteman National Park south of The Old Manse were abandoned.

The installation of security systems continued with the result that today every one of our museum houses is provided with alarm protection.

LANDSCAPE PROJECTS

At the Norris Reservation in Norwell, under the direction of Management Unit Superintendent Wayne N. Mitton, a small parking area was constructed. Framed with fieldstone wall, it harmonizes with the natural landscape.

Also under Superintendent Mitton's direction, a comprehensive program in arboriculture will be initiated this summer at World's End. The area's trees, which are such a striking and vital part of the original landscape designed by Frederick Law Olmsted in 1890, will be pruned and fed. Diseased trees, primarily American elm, removed over the past few years, will be replaced. Standing Committee member Peter L. Hornbeck and Advisory Council member Sidney N. Shurcliff, both landscape architects, are providing valuable advice.

At Holmes Field in Plymouth, a new gate has been installed at that portion of the property with shoreline on Plymouth Bay. The area will also be landscaped in the spring.

At Old Town Hill Reservation in Newbury, the entrance has been relocated and a new trail to the hilltop established. A new entranceway has also been constructed. Designed by former Projects Officer David P. DeSmit, M.L.A., in asso-

ciation with Arthur M. Jones, Chairman of the Local Committee for Old Town Hill, it combines the best elements of modern architecture with the traditional concept of a country turnstile.

At Naumkeag, the Linden Walk has been pruned and thinned in a winter project.

AGASSIZ ROCK, MOUNT ANN

In 1974, a special ad hoc Committee on Pest Control was appointed to study the devastation of hemlock stands at Agassiz Rock and Mount Ann Park. Its recommendations, contained in an excellent report, call in part for the harvest of dead hemlocks at both properties to hasten natural succession, to reduce danger of forest fire and to improve the scenic beauty of the area. The recommendations were approved by the Standing Committee in April. Removal of the dead hemlock will be accomplished under the professional direction of the New England Forestry Foundation and Resident Forester Hugh T. Putnam, Jr. Members of the special Committee on Pest Control were Paul Brooks, Chairman, Ellis N. Allen, John T. Hemenway, Robert Livermore, John W. Kimball and Wilfrid Wheeler, Jr.

At Royalston Falls in Royalston, Superintendents Warren A. Drew and Stanley I. Piatczyc teamed up to install some 300 feet of cable fencing. Designed to provide protection for visitors, its simple cable strands blend harmoniously and unobtrusively with the natural landscape.

At the Dinosaur Footprints in Holyoke, following a study of the area and consultation with Dr. John H. Ostrom, Professor of Geology, Division of Vertebrate Paleontology, Peabody Museum of Natural History, Yale University, we have made initial improvements in the landscape of the area and, following conferences with public agencies, plans call for further steps to

beautify the property, as well as, of course, providing for the continuing protection of the dinosaur footprints themselves.

At Tyringham Cobble, in Tyringham, plans were made to increase the numbers of animals grazing on the property, thus helping to control the ever-present problems of field succession.

MISERY ISLANDS RESERVATION

To meet the growing problem of ultimate waste disposal at Misery Islands Reservation in Salem Bay, an intensive educational program was launched in August which asks visitors to carry picnic trash off the island aboard their boats and to deposit it at an approved refuse facility on the mainland.

Posters portray the dwindling capacity of the islands' present waste disposal area and plastic bags are provided for visitors. Wardens also tell the story of the carry on-carry off program and distribute literature to visitors. This year, the program will continue.

TISBURY POND, LOWELL HOLLY

In West Tisbury, The Trustees of Reservations and the owners of the Tisbury Pond Club, following negotiations with West Tisbury officials, agreed to permit public access to a portion of South Beach to provide a swimming facility for West Tisbury residents.

At Lowell Holly Reservation in Mashpee, we continued to coordinate our management and administration of the property with the Sandwich Conservation Commission and its planning for public use of the some 250-acre property bordering Lowell Holly to the north and fronting on Wakeby Pond, recently purchased for conservation purposes. The Commission's plans call for the establishment of a bathing beach, bathhouse and toilets, a nature center, a

parking area, a boat ramp and hiking trails.

COMMITTEE ON MANAGEMENT AND PROTECTION

With now 56 properties around the Commonwealth totaling some 14,000 acres of land, our responsibilities for the continuing management and protection of their outstanding environmental and cultural qualities have grown enormously.

A major portion of our budget and, indeed, of our time, is quite naturally concentrated in the area of maintaining and protecting existing properties.

With this in mind, Standing Committee Chairman Augustus P. Loring appointed a special Committee on Management and Protection in 1974. Its members are Paul Brooks, Chairman, Robert Livermore, John T. Hemenway, John W. Kimball and Peter L. Hornbeck.

SUPERINTENDENTS' MEETING

Our annual meeting of Superintendents, now nine in number, took place in October, 1974 in Berkshire County. Hosts for the two-day conference were Superintendents Stanley I. Piatczyc and Warren A. Drew. We stayed at Naumkeag and meetings were held in the Choate Room at The Mission House and the Budd Visitor Center at Notchview in Windsor. A part of what is always a most useful and pleasant occasion was a picnic supper at Naumkeag for Superintendents and Chairmen of the area's Local Committees and their wives.

CONSERVATION VOLUNTEERS

At Crane Beach, in what has become a most successful and widely-heralded program in control of shoreline erosion, more than 125 Ipswich High School students helped to plant some 20,000 culms of

American beach grass to stabilize the area's sand dunes.

At Holmes Field in Plymouth, to encourage wildlife and to add to the beauty of the area, Girl Scouts helped to plant high-bush cranberry, Washington hawthorn, flowering crab and red osier dogwood.

At World's End, Hingham High School students helped to plant hawthorn, Austrian pine, Japanese black pine, red oak and flowering crab apple, some 21 trees in all.

And in November, in a most welcome event, Alan Burt and some 60 members of the Appalachian Mountain Club visited Crane Beach in the AMC Fall Clean-up and Beachcombing Hike.

As always, scores of volunteers at our properties throughout the Commonwealth continue to provide services which increase immeasurably the quality of management as well as the level of protection for each of the areas' cultural and environmental values. We are most grateful to them all.

MONUMENT MOUNTAIN RESERVATION

At Monument Mountain Reservation in Great Barrington, our opposition continues to the establishment of a sanitary land fill dump on lands bordering the Reservation.

With Monument Mountain Regional High School just west of the proposed sanitary land fill site, the Berkshire Hills Regional School District is also opposed.

The Trustees of Reservations has asked the Secretary of the Executive Office of Environmental Affairs to determine whether an Environmental Impact statement should be required.

INTERPRETATION AND RESEARCH

ANNUAL NAUMKEAG LECTURE

On a soft and sunny Wednesday afternoon, July 17, 1974, some 115 persons gathered in the Carriage House at Naumkeag to hear Roland B. Hammond talk on **City and Country Furniture in New England – Some Similarities and Differences.**

With a superb collection of colored slides and his remarkable knowledge of American decorative arts, Mr. Hammond delighted his audience. Furniture in the collection at Naumkeag also played a starring role in the afternoon's presentation.

After the lecture, as has become so pleasantly traditional, cocktails were served on the terrace at Naumkeag overlooking Monument Mountain.

The annual Naumkeag lecture series, now in its eighth year, has been enormously fortunate in its selection of speakers.

Each has been a distinguished representative of his or her field. Mr. Hammond is no exception as is shown below in the brief biography which appeared in the invitation to the lecture.

“Roland B. Hammond’s interest in American antiques began as a small boy with a collection of firearms and bladed weapons of the Revolutionary period. Later, his interests grew to include furniture, glass, silver, wooden ware and pewter, until today Mr. Hammond is widely recognized as one of New England’s best authorities in the field of American Decorative Arts.

“A past President of the North Andover Historical Society, he is presently Honorary Curator of its properties which include the superb Samuel D. Stevens collection of pewter and furniture, most of which appears as illustrations in two of the field’s most definitive works, Wallace Nutting’s

Furniture Treasury and Early Pine Furniture of New England by Russell H. Kettell.

“A lecturer and educator, Mr. Hammond has served as panel chairman at Collectors Weekends at Old Sturbridge Village and as a speaker at a special invitational symposium on Country Furniture at the Henry F. duPont Winterthur Museum. A member of the faculty of the Adult Education Program at Phillips Academy, Andover, for several years he also conducted a question and answer program on American antiques at radio station WEEI in Boston.

“As Chairman of the Local Committee for the Stevens-Coolidge Place in North Andover, he is also a treasured member of the family of The Trustees of Reservations.

“With his affection for Naumkeag and his knowledge and enthusiasm for the decorative arts, Mr. Hammond will explore the fascinating history of American furniture with special emphasis on New England and a discussion of style and use in city and country houses.”

COLONIAL NESTING BIRD STUDIES

At the Crane Reservation in Ipswich, Robert C. Tibbetts, a member of the faculty at Saugus High School, completed the fifth year of a continuing research study of nesting terns. Assisted by Saugus High School student volunteers Tom Ford, Chris Ford, Chris Boyes and Dick Tibbetts, he records the nesting successes of least and common terns, comparing the statistics with previous years. He also measures the impact of predators and the effect of human activity within the nesting area.

The following paragraphs summarize Mr. Tibbetts’ detailed report:

“The 1974 season was the most successful yet in terms of fledged young. It is estimated by our best observation figures

that there were between 30 and 35 young which reached the flying stage. The highest earlier total was 17 in 1970. The other three years produced a total of only 13 young . . .

"We were greatly heartened by the large number of chicks which were fledged. Since there were approximately 35 fledglings out of a flock of 65, it seems that the colony has replaced half of its numbers in one season. It will be interesting to note whether this develops into a pattern and the nesting succeeds only periodically and that replacement of the flock is not dependent on a fixed yield every nesting season."

At Cape Poge Wildlife Refuge on Chappaquiddick Island, we continued our inventory and census of colonial nesting birds. The study provides basic data on bird population increase or decrease from one year to the next as well as a determination of any human disturbances or natural predation in the nesting colonies. It also provides a way to measure the ecological carrying capacity of this fragile shoreline, an important factor in providing for visitor use of the properties as well as policies for their protection.

The first census was conducted in 1972 by Sandy Beach, a student at Colorado State University and summer resident of Edgartown. His study and report entitled **Censusing of Colonial Birds, Cape Poge Wildlife Refuge, Chappaquiddick Island, Massachusetts, 1972** provided a foundation to help determine nesting bird populations in years to come.

In 1973, Judith S. Wellins, a graduate student at Windham College, Putney, Vermont, continued the annual census. Miss Wellins was one of a small group of students participating in a study of animal behavior, a field course conducted by Dr.

Kenneth R. Ellis, Department of Psychology, Windham College.

Miss Wellins' report, entitled **Census of Colonial Birds at Cape Poge Wildlife Refuge and Wasque Reservation, 1973** was one of several student reports prepared last summer. Each is on file at General Headquarters of The Trustees of Reservations in Milton. Also in 1973, Dr. and Mrs. Ellis and three Windham College students, Stephen Sousa, Richard Rothman and Mark Gross, conducted a tern census at Wasque Reservation with the assistance of Superintendent Foster B. Silva. The census report is entitled **Tern Census of a Re-established Dune Area on Wasque Point, Wasque Reservation, Chappaquiddick Island, Massachusetts, 1973**.

Again, with Dr. Ellis's help, 10 students continued their studies in June, 1974. They undertook a variety of field observations producing eight reports. Fortunately, the study team this year occupied a cottage at Chappaquiddick which allowed it convenient proximity to the study sites. The information obtained continues to be most valuable in our efforts to provide a refuge for wildlife. We are grateful to Dr. Ellis and to every member of the research team.

INTERPRETIVE PROGRAMS

A grant of \$15,000 from the Mabel Louise Riley Trust (\$5,000 per year for three years) has enabled The Trustees of Reservations to provide new dimensions for its interpretive programs.

The text and drawing for a new trail guide for World's End Reservation in Hingham have been completed. Entitled **Damde Meddowes Interpretive Trail**, the guide will be published this spring. It was written by Deputy Director Garret F. Van-Wart.

Construction of the trail itself was completed in 1974. It leads visitors through a wetland meadow and a portion of upland and describes some of the plants and animals which are characteristic of the area and their interrelationships within a meadow ecosystem.

Timber from Notchview Reservation, furnished lumber for the boardwalk through the wetland meadow.

Also in 1974, arrangements were made which will result, in early 1975, in the completion of the manuscript for a new interpretive booklet to be entitled **A Story of The Old Manse**.

The manuscript is being written by Jason H. Korell of Concord, Editor of **The Concord Journal**, author and historian.

Writer and historian, Gerard Chapman of Great Barrington has also completed a manuscript which tells the fascinating story of The Mission House.

A new trail guide which describes the remarkable natural history of Bartholomew's Cobble is also scheduled to be published in early 1975. Entitled **Ledges Interpretive Trail**, it was written by Howard T. Bain, Warden-Naturalist at the Cobble for many years, now retired. Illustrations are by Morgan Bulkeley, IV. Mr. Bulkeley, sculptor as well as artist, is a graduate of Yale University. He grew up in nearby Mount Washington. He is the son of Morgan G. Bulkeley, Chairman of the Local Committee for Bartholomew's Cobble Reservation.

Scores of students from Berkshire County schools continue to visit The Mission House annually in a special program designed to tell the story of the Reverend John Sergeant, his Stockbridge Indians and life in those early days of the 18th century.

At Rocky Woods, despite the frustrations

of now three warmer winters, Mrs. Carol Strom continues to provide instruction for youngsters in skating and figure skating. Rocky Woods is one of the few remaining areas which offers skating on natural ice.

At Notchview Reservation in Windsor, an interpretive trail, part of the proposed demonstration forest project, was finally completed in 1974. The project will emphasize management techniques designed to beautify the forest landscape, to deal with field succession and to encourage wildlife.

There are, of course, interpretive programs at all of our museum houses and at many of our landscape and natural areas.

One of the most successful is at the Richard T. Crane, Jr. Memorial Reservation in Ipswich. Here **Pine Hollow Interpretive Trail**, panel boards and a folder entitled **This Fragile Shore** are all designed to tell visitors about the delicate natural world of sand dunes and salt marsh.

VISITATION

The use and enjoyment of our properties continue to grow annually. Recorded visitations for the year 1974 are listed below. Methods of reporting vary according to Reservation.

Colonel John Ashley House, 682 persons; Bartholomew's Cobble, 3,625 persons; Chesterfield Gorge (recorded weekends and holidays only), 1,540 vehicles; Halibut Point, 2,475 vehicles; Lowell Holly (recorded weekends and holidays only), 1,499 persons; The Mission House, 2,834 persons; Naumkeag, 2,426 persons; The Old Manse, 14,898 persons; Crane Reservation, 51,180 vehicles; Stevens-Coolidge, 484 persons; Bryant Homestead, 562 persons; Cape Poge-Wasque, 34,100 persons; and World's End, 42,717 persons.

From these figures and others, it is esti-

mated that some 581,658 persons annually visit the 56 open space and historic areas owned by The Trustees of Reservations. Use of the areas is growing markedly, especially during the winter months. At World's End in April, 1974, a new system was established which calls for the collection of individual admission fees.

MEMBERSHIP AND GIFTS

Contributions to the annual campaign, to land acquisition efforts and to regional appeals such as the **Friends of Cape Poge Wildlife Refuge & Wasque Reservation**, provide funds which are vital to the continuing success of The Trustees of Reservations.

Figures from the Membership Department show the following funds raised in calendar 1974: General Fund: \$31,098; Land Acquisition Fund: \$4,863; Assigned to Reservations: \$48,413; Memorial Gifts: \$615; a total of \$84,989.

Special campaigns and gifts: Friends of Cape Poge Wildlife Refuge & Wasque Reservation: \$7,725; Oliver D. Filley Fund: \$4,500; Cobble-Ashley House Campaign: \$3,062. The combined total of all campaigns, memorial gifts and grants for the calendar year 1974 totals \$100,276. We're most grateful.

COBBLE-ASHLEY HOUSE CAMPAIGN

In early January 1974, the four-year campaign to protect and enlarge Bartholomew's Cobble and to preserve the Colonel John Ashley House successfully reached its goal of \$167,500. This extraordinary campaign has made possible the acquisition and protection of 115-acre Hurlburt Hill with its magnificent views of the Housatonic River Valley, Mount Everett and Mount Grace, as well as the perpetual preservation of the Colonel John Ashley House, the oldest dwelling in Berkshire County, built in

1735. Additional land, however, must still be acquired to provide complete protection.

The Cobble-Ashley House campaign could not have existed without the tireless and inspired leadership of Chairman Morgan G. Bulkeley of Pittsfield. We owe him enormous thanks and congratulations. We are, of course, especially grateful to each of the more than 800 contributors whose participation has made possible enlargement and protection of Bartholomew's Cobble Reservation.

FRIENDS OF THE COBBLE AND THE ASHLEY HOUSE

A new organization has been formed to insure the continuing protection of the Cobble's outstanding natural values and the architectural and historic features of the Colonel Ashley House.

It is called the **Friends of Bartholomew's Cobble and the Colonel John Ashley House**. We are immensely fortunate in the officers of this new Friends organization. They are J. Graham Parsons of Stockbridge, Chairman; Colonel William B. Adams of Canaan, New York, Vice Chairman; Mrs. Erik H. Haupt of South Egremont, Vice Chairman; and Mrs. John R. Downie of Ashley Falls, Secretary-Treasurer.

We are delighted to welcome them aboard and we look forward to working with them on behalf of the Cobble and the Ashley House in the years ahead.

NEW POLICIES

New policies and procedures in connection with the area of membership and gifts were approved by the Standing Committee in November, 1974. They were the result of many thoughtful discussions and finally of recommendations made by the Committee on Membership and Gifts:

President Charles E. Mason, Jr., Advisory Council member Arthur M. Jones and Standing Committee members Mrs. William C. Wigglesworth and Thomas B. Williams.

They include a change in nomenclature and categories of membership. New categories are as follows: Associate Member, \$10; Member, \$25; Contributing Member, \$50; Supporting Member, \$100; Sustaining Member, \$250; Sponsor, \$500; Patron, \$1,000; Benefactor, \$5,000 or more.

The Standing Committee also approved a new emphasis on the establishment of Friends organizations, such as the present highly successful **Friends of Cape Poge Wildlife Refuge and Wasque Reservation** and the new **Friends of Bartholomew's Cobble and the Colonel John Ashley House**.

At a property served by the Friends organization which has an admission fee, members of the Friends organization will be entitled to admission privileges.

The amount deductible as a contribution to The Trustees of Reservations will be the difference between the cost of an annual ticket for admission to the property and the total amount of money received as a membership contribution. Members of Friends organizations may elect also to waive receipt of an annual admission ticket and designate their entire contribution as charitable.

COMMITTEES AND STAFF

After more than 30 years of service, Mario Pederzini retired in November, 1974 as Superintendent of Rocky Woods Reservation in Medfield.

Under Mr. Pederzini's direction, Rocky Woods has become a celebrated conservation-recreation area. It is perhaps most famous for its program in outdoor ice

skating.

An active member of his community, Mr. Pederzini is affectionately known as "Mr. Rocky Woods." He is a member of the Medfield Volunteer Fire Department and Chairman of the Medfield Conservation Commission.

In a formal vote, the Standing Committee expressed its gratitude for all Mr. Pederzini's contributions to the preservation of Rocky Woods and its enjoyment by the public over the past three decades. We wish him well in his retirement.

The new Superintendent at Rocky Woods will be Joel A. Udstuen of State College, Pennsylvania. Mr. Udstuen is a graduate of Pennsylvania State University where he received a B. S. in Park Administration in 1969 and an M. S. in Resource Management in 1975.

Twenty-eight years old, he has served as Supervisor, Parks and Recreation District, Harford County, Maryland and as Assistant Superintendent, Pymatuning State Park, Jamestown, Pennsylvania. Mr. Udstuen, his wife and two children will live at Rocky Woods. He will be Superintendent of the Medfield Management Unit which includes Rocky Woods Reservation.

PROJECTS OFFICER

In August 1974, John C. Marksbury joined us as Projects Officer. Formerly Director of Development at the Beaver Country Day School in Chestnut Hill, Mr. Marksbury will direct all activities in the area of memberships and gifts as well as providing general staff support for the Administration.

A former Assistant to the Headmaster at Worcester Academy, Worcester, Mr. Marksbury is a native of Cincinnati, Ohio. In 1969, he served as an aide to U. S. Congressman Henry S. Reuss of Wisconsin.

Joining us also in September as Property Manager of the new 700-acre Cornelius and Mine S. Crane Reservation was Walter A. Prisby of Ipswich. Mr. Prisby, manager of the property for many years for Mrs. Crane, is a former Chief Petty Officer in the United States Navy.

We welcomed as well Mrs. Shirley E. Catella of Concord as Head Hostess of The Old Manse; Mrs. Phyllis H. Stevens of Quincy whose responsibilities include secretarial-publications at General Headquarters in Milton; on the maintenance staff at Naumkeag in Stockbridge, Dennis C. McGrevey; and as Head Hostess at Naumkeag Mrs. Carol D. Patten. Paul J. Topham of Wrentham, a graduate of the Stockbridge School of Agriculture, University of Massachusetts, will join us shortly as Landscape Supervisor of the Ipswich Management Unit.

LOCAL COMMITTEES

A vital part of The Trustees of Reservations is its now 46 Local Committees. Their chairmen and their members play a crucial role in the management and protection of their properties. Many have special skills in the area of the environment which are invaluable, and on countless occasions throughout the year they contribute information, not only about their properties but about their communities which is vital to the responsibilities of the Administration and to the deliberations of the Standing Committee itself. We're most grateful to them all.

In Stockbridge, at The Mission House, we all but said goodbye (they will remain as members of the Local Committee) to Dr. and Mrs. G. Douglas Krumbhaar who have retired to Princeton, Massachusetts. Dr. Krumbhaar was Rector of St. Paul's Church in Stockbridge for 10 years.

Both members of the Local Committee

for many years, Mrs. Krumbhaar was Chairman of its Garden Committee. It was under her direction that the garden at The Mission House won the silver medal of the Massachusetts Horticultural Society in 1972.

Dr. Rustin McIntosh, another long-time local committee chairman, also retired in 1974. He served as Chairman of the Local Committee for Tyringham Cobble for many years. Meetings were traditionally held in his charming house overlooking Tyringham Valley. We are delighted to report Dr. McIntosh will remain a member of the committee.

The new Chairman of the Local Committee for Tyringham Cobble is Walter A. Howard. Mr. Howard is a dairy farmer and a neighbor of the Cobble who has a special affection for its beauty. We look forward immensely to working with him in the years ahead.

In 1974, also, Robert K. Wheeler retired as Chairman of the Local Committee for Monument Mountain Reservation.

A great figure in the Berkshires, Mr. Wheeler was known as "Mr. South County." He had served as Chairman for many years. Thankfully, he will continue as a member of the committee.

We are delighted to welcome as the new Chairman of the Local Committee, George G. Francis of Great Barrington, Publisher and Editor of **The Berkshire Courier**.

THANKS AND APPRECIATION

With sadness, we report the deaths of the following members of the corporation. Their interest in The Trustees of Reservations and their loyalty to its principles will be remembered always.

Francis Randall Appleton, Jr.

Loring Conant

John W. Kunhardt

Colonel Appleton represented the ninth consecutive generation to own and operate Appleton Farms. The property, in Ipswich and Hamilton, was granted originally by Charles I in 1638.

A distinguished New York attorney, he spent as much time as he could at the property he loved with its Great Pasture and Grass Rides which he gave to The Trustees of Reservations in 1970.

One of his greatest wishes was that Appleton Farms should be preserved forever. Mrs. Appleton will have the farm for her lifetime and, according to the terms of Colonel Appleton's will, it is to go eventually to The Trustees of Reservations.

Loring Conant was Executive Secretary of The Trustees of Reservations for 10 years. He retired in 1968. His accomplishments were immense and are summarized in a special tribute by the Standing Committee. The resolution, a part of the August, 1974 meeting, reads as follows: "To recall with fond memory upon the death of Loring Conant, his accomplishments as Executive Secretary of The Trustees of Reservations from 1958 to 1968, during which time the number of our properties increased from 28 to 44; the excellence of his illustrated lectures, through which thousands of persons increased their knowledge of the natural world and their understanding of its plants, animals and birds, and the many contributions made by the organization to protect the beauty of the Massachusetts landscape and the quality of our environment."

John W. Kunhardt was a member of the Standing Committee of The Trustees of Reservations for six years, from 1968 to 1974, and a member of the Executive Committee for three years, from 1969 to 1971.

He was devoted to the purposes of The Trustees of Reservations and as Executive

Vice President and a Director of Hunneman & Company, his knowledge and love of land and the landscape enabled him to make vital contributions to the success of our activities. He was always there for us to call upon for advice and direction and never failed to respond to a request to travel here or there to look at properties proposed for preservation. He had a delightful sense of humor as well which in meetings he attended helped provide a refreshing perspective on whatever subject we were discussing. Each of us feels his loss in a special way. He left us far too soon.

ADVISORY COUNCIL

One of the joys of The Trustees of Reservations is the interest and involvement of its board members. Rarely are our regular monthly meetings attended by less than 25 members of the Standing Committee and of the Advisory Council. Not infrequently there have been as many as 34.

Thus, although it is a milestone to report that this year four members of the Standing Committee must "retire" following six-year terms, it is with the cheerful and certain knowledge as well that they will be equally involved in our activities as members of the Advisory Council.

Leaving the Standing Committee this year are Theodore Chase, Augustus P. Loring, Richard L. Frothingham and Thomas B. Williams.

Mr. Loring was chairman of the Standing Committee from 1969 to early February 1975. As chief presiding officer of the organization, he was without peer. A superb chairman, he directed the meetings effectively and efficiently, with humor, tact and just the right measure of control while encouraging all to take part. Under his direction, The Trustees of Reservations successfully explored and conquered new

challenges and new opportunities, increasing the number of its properties from 44 to 56, including such remarkable areas as Wasque Reservation and Coskata-Coatue Wildlife Refuge on Nantucket Island. We also entered a new era with the acquisition of conservation restrictions.

Mr. Frothingham served as Treasurer of The Trustees of Reservations first from 1962 to early 1968 and from 1969 to early 1975, a total of 12 years.

Since 1962, the amount of our endowment funds has grown substantially as have our operating receipts with the acquisition during that time of 22 properties. Expenditures have also increased proportionately, all of which has meant a growing responsibility for the Treasurer. Under Mr. Frothingham's direction, the present bookkeeping system was created and the Controller's office established at General Headquarters. We also began a new venture, raising more than \$1,000,000 from public subscription to purchase conservation properties, all under the eagle eye of the Treasurer. But if the eye was eagle sharp, it also clearly recognized the charitable role of the organization and its great tradition of public service. Mr. Frothingham was, of course, active in many other ways as well, visiting properties and providing welcome advice on ways to improve the efficiency of management: The Frothingham tradition reaches back to 1949, when Mr. Frothingham's uncle also served as Treasurer of The Trustees of Reservations.

Mr. Chase served as a member of the Standing Committee from 1969 to early 1975. He was also the Standing Committee's representative on the Executive Committee.

He has been immensely active with The Trustees of Reservations. He is a member of the Special Committee — Charles River

Protection Program and, with Mr. Loring, played a key role in the acquisition of Coskata-Coatue Wildlife Refuge and Kenyon Woods (now a part of Rocky Narrows Reservation) as well as in the acquisition of many other specific properties and conservation restrictions. His wise counsel on every matter from policies to programs is often sought and gladly given.

Mr. Williams was a member of the Standing Committee from 1969 to early 1975. As Chairman of the Special Committee on the Charles River Protection Program, his leadership and his thorough and patient research have made possible the implementation of what has become a most successful program in preservation. He is also a member of the Committee on Membership and Gifts and this year, Chairman of the Nominating Committee, and he has been and will continue to be a member of the Local Committee for Rocky Woods.

Happily again, only a change in title and not in involvement is at stake.

NEW TREASURER

In 1975, we welcome as Treasurer, H. Gilman Nichols of Essex. A Vice President and Director of the Fiduciary Trust Company, Mr. Nichols has been a part of the corporation of The Trustees of Reservations since 1972 and is a member of the Castle Hill Study Committee and Chairman of the Master Plan Study Committee for the Cornelius and Mine S. Crane Wildlife Refuge.

A long-time resident of Ipswich, he served as Chairman of its Planning Board and as a member for six years.

For eight years he served as Treasurer of the Shore Country Day School in Beverly and was a member of its Board of Trustees for nearly a decade. We look forward immensely to working with him in the years ahead.

NEW STANDING COMMITTEE

MEMBERS

As new members of the Standing Committee we welcome Mrs. David C. Forbes, John Hay, Mrs. Robert G. Potter and Frederic Winthrop, Jr.

Mrs. Forbes spent her youth in New Mexico and grew up in the out-of-doors. An avid hiker and canoeist, she has climbed in the Sangre de Cristo and San Juan Mountains in Colorado and has taken float trips on the Colorado and Missouri Rivers.

She has also been Assistant Curator of Collections at the Museum of International Folk Art in Santa Fe.

Wife of the Senior Trustee of the Naushon Trust, Mrs. Forbes is presently Chairman of the Naushon Resources Study Committee. A resident of Sherborn, she is a Trustee of the Sherborn Public Library as well. John Hay is a distinguished author and environmentalist who is best known, perhaps, for his writings on and about Cape Cod. A resident of Brewster, he is the author most recently of **Spirit of Survival: A Natural and Personal History of Terns**, as well as **The Run, Atlantic Shore and In Defense of Nature**. Visiting Professor of Environmental Studies at Dartmouth College, he travels widely but spends the better part of each year on his beloved Cape. Here he is Chairman of the Brewster Conservation Commission, and is deeply involved as a founder and President of the Cape Cod Museum of Natural History whose programs to help both young and old understand the wonders of our natural environment are widely recognized.

Mrs. Robert G. Potter's love for Martha's Vineyard and Chappaquiddick is a relation-

ship of long standing. Wife of an eminent professor at Brown University, she spends a portion of the week in Providence and the remainder at their farm on Chappaquiddick. There she is Chairman of the Edgartown Planning Board, and most recently the Board of Selectmen's appointee to the Martha's Vineyard Land and Water Commission. She is also President of the Chappaquiddick Association, and a member of the Board of Directors of Felix Neck Wildlife Trust, Sheriff's Meadow Association and the Vineyard Conservation Society as well as a member of the Local Committee for Cape Poge Wildlife Refuge and Wasque Reservation. She is also a former Chairman of the Board of Trustees of the Mary C. Wheeler School in Providence.

Frederic C. Winthrop, Jr. has lifetime association with the land and land conservation. He grew up on his father's dairy farm in Hamilton and presently is owner and operator of Turner Hill Farm in Ipswich. Before and after his graduation from Harvard University in 1964, he served as railroad gandy-dancer, as oil field roustabout and as Projects Officer for Backbay-Orient Enterprises in Thailand, returning to conservation in 1970 as Assistant to the Executive Director of the Massachusetts Forest and Park Association. He is presently Chairman of the Ipswich Conservation Commission and as an active farmer, a breeder of Devon cattle and a producer of alfalfa corn, Christmas trees and firewood.

He also finds time to coordinate the activities of the Essex County Greenbelt Association and to serve as a member of the Local Committee for the Richard T. Crane, Jr. Memorial Reservation.

OUR MANY FRIENDS

We would also like to express our thanks to all the many friends of The Trustees of Reservations, old and new, whose loyalty and support mean so much to the cause of conservation throughout the Commonwealth and continue the dedica-

tion, spirit and ideals which created the organization and have made its accomplishments possible over the past 84 years.

Respectfully submitted,

Gordon Abbott, Jr.

Note: All Reservation and Memorial Endowment Funds, with the exception of The Mission House and Naumkeag, are pooled for investment purposes. Income is assigned quarterly to each fund according to its unit share of the total account. If additions are made to principal in any single account, its number of units, or share of the total, is raised proportionately, thus allowing a proportionate increase in growth and income. In the same way, each fund also shares in an appreciation of principal and in an increase of dividends.

Mr. Richard L. Frothingham, *Treasurer*
The Trustees of Reservations
Milton, Massachusetts

Dear Mr. Frothingham:

I have examined the Balance Sheet of The Trustees of Reservations as of October 31, 1974 and the related Statements of Income and Expense and Changes in Funds for the year then ended. My examination did not include, however, an audit of the books, accounts and records of certain locally handled reservations, namely, The Old Manse and Stockbridge Mission House; otherwise, the examination was made in accordance with generally accepted auditing standards, and included such tests of the accounting records and other auditing procedures as I considered necessary in the circumstances.

Subject to the foregoing comments, I hereby certify that the accompanying Balance Sheet and Statements in support thereof present fairly the financial position of The Trustees of Reservations at October 31, 1974 and the results of its operations for the year then ended in conformity with generally accepted accounting principles consistent with that of the preceding year.

Conservation Restrictions

With the need to preserve open space throughout the Commonwealth growing yearly, increasing use will be made of conservation and preservation easements or restrictions.

They have played a major role in protecting the beauty of the landscape in Great Britain and Scotland and, with recent legislation, their use is beginning to widen here.

Restricting the use and development of land and maintaining the architectural integrity of structures while still allowing the fee title to remain in private ownership, easements or restrictions offer landowners and environmental organizations such as The Trustees of Reservations new opportunities in the area of conservation.

Conservation restrictions do not provide for public access or entry unless specific permission is granted by the landowner.

In April 1971, members of the Corporation voted to expand the corporate purposes of The Trustees of Reservations to allow for the use of conservation and preservation restrictions.

Besides "acquiring, holding, arranging, maintaining and opening to the public, under suitable regulations, beautiful and historic places and tracts of land within this Commonwealth," the purposes of The Trustees of Reservations were enlarged to permit "acquiring, holding, maintaining and enforcing such conservation and preservation restrictions, easements and other interests in land, water areas and structures as it deems appropriate and in the public interest and in the manner and extent permitted by law . . ."

A special Conservation Restriction Fund has been established to be used as necessary in the years ahead for the defense of conservation or preservation restrictions held by The Trustees of Reservations.

Since acquiring its first restriction in 1972, The Trustees of Reservations has received a total of 19 restrictions covering more than 391 acres of land.

History and Organization

The Trustees of Reservations was created in 1891. Its founding was due primarily to the genius of one man, Charles Eliot of Cambridge.

A landscape architect, disciple of America's dean of landscape architects, Frederick Law Olmsted, Charles Eliot (1859-1897) was the son of Charles William Eliot, President of Harvard University from 1869 to 1909.

Concerned with the need to preserve "fine bits of natural scenery" to provide "rest and refreshment" for the citizens of the metropolitan area, Eliot, in January, 1890, proposed the establishment of an organization "to hold small and well distributed parcels of land, just as the Public Library holds books and Art Museums pictures for the use and enjoyment of the public."

The Trustees of Reservations (until 1954 The Trustees of Public Reservations) was incorporated by the Massachusetts General Court a year later (Chapter 352, Acts of 1891) "for the purpose of acquiring, holding, arranging, maintaining and opening to the public, under suitable regulations, beautiful and historic places and tracts of land . . ."

In the first year of existence, The Trustees of Reservations acted to protect "a beautiful tract of diversified woodland in Stoneham, containing about 20 acres." It could not be accepted, however, until a fund of some \$2,000 had been raised by public spirited citizens to provide for its maintenance and protection. The area, Virginia Wood, is today a part of the Middlesex Fells Reservation.

In 1892, The Trustees of Reservations successfully urged the establishment of

a metropolitan park system in the Boston area, the first of its kind in the nation. And in 1894, The National Trust for Places of Historic Interest or Natural Beauty was founded in England. Its original concept was patterned directly upon The Trustees of Reservations and, until it was reorganized by an Act of Parliament in 1971, a designee of the Standing Committee served as a member of its ruling Council.

ACQUIRING LAND

The Trustees of Reservations acquires land for open space, natural areas or historic preservation either by gift or purchase. Gifts of land may be received either by deed or by legacy from the donor. When property is purchased, The Trustees of Reservations depends upon contributions to help defray costs. Gifts of either land (at fair market value) or money qualify for Federal income tax deduction up to 50 per cent of the donor's adjusted gross income. The Trustees of Reservations may also acquire conservation or preservation easements or restrictions.

ORGANIZATION

Besides the General and Friends membership, there are some 150 members of the corporation, traditionally called "Trustees." The organization's governing board is its 14-member Standing Committee which meets monthly. There is a small paid staff.

For each Reservation, with some exceptions, there is a Local Committee. Its members are usually residents of the area in which the Reservation is located. They provide a vital interest in its care and may help administer and oversee it as circumstances require.

Membership and Gifts

The Trustees of Reservations receives no public funds. It relies for support on voluntary subscriptions, income from endowments and limited admission fees. Contributions are earnestly needed to help carry on the work of the present and meet the challenge of the future.

You may join The Trustees of Reservations in any of the categories listed below, and, if you wish, assign your membership contribution to the Reservation of your choice. A membership entitles you to receive all regularly issued publications. A newsletter keeps you up to date on conservation activities. Those who join as Benefactors will be carried on the organization's permanent records. All contributions are deductible for Federal income tax purposes.

Categories of Membership¹

Contributing Member	\$50
Supporting Member	\$100
Sustaining Member	\$250

FRIENDS

To provide support for continuing protection and management at four properties of The Trustees of Reservations, two new membership organizations have been established. They are the **Friends of Cape Poge Wildlife Refuge and Wasque Reservation**, Chappaquiddick Island, Martha's Vineyard and the **Friends of Bartholomew's Cobble and the Colonel John Ashley House**, Ashley Falls.

Membership contributions are assigned directly to the property served by the Friends organization. A membership entitles each Friend to receive all regularly issued publications of The Trustees of Reservations. At Bartholomew's Cobble and the Colonel John Ashley House membership provides admission to the properties.

ENDOWMENTS

A vital ingredient in the preservation of any property is an endowment which can provide income sufficient to enable The Trustees of Reservations to meet costs of its continuing management and protection.

Thanks to the thoughtfulness and generosity of the original donor and to many others through the years, 31 properties of The Trustees of Reservations have been provided with endowment funds. With two exceptions, however, income from present endowments is insufficient to meet the cost of operations.

Revenue thus must come from other sources. Proceeds from admissions, parking receipts and so forth, as well as, of course, annual contributions, are essential to help meet operating expenses, but all of these, understandably, are subject to yearly fluctuations.

Endowments, sufficient to provide the kind of income necessary, are the surest way to guarantee perpetual preservation.

A gift or bequest of endowment funds may be assigned exclusively to the Reservation of the donor's choice.

¹ Adopted by vote of the Standing Committee on November 13, 1974. Founders who joined prior to December 31, 1974 will continue to be carried on the organization's permanent records.
